This e-learning programme, which uses Electude learning modules, is the most sophisticated available on the market. It is more interactive than other products and the only one to currently offer an engine simulation programme. It provides coverage of the mandatory units of the level 3 qualification, to give tutors confidence that the required knowledge is being covered.

Electude's learning modules use gamification principles and highly interactive resources, including animations and simulations, to keep students engaged throughout their training.

enables delivery of theory through interactive and engaging material, which is preferred by learners to traditional resources
offers more flexible delivery of demonstrations and other practical tasks by utilising e-learning material and saves time and resource
means learner progress can be tracked and monitored, and homework can be automatically marked

enables learners to see their progress and scores in the e-learning, allowing them to see what they still have to complete, and where they need to improve
helps tutors to see any specific areas of weakness that groups of learners may have which can then be addressed in the classroom/workshop.

Offers flexibility in lesson delivery and learning styles.

With increased internet speeds available to learners using smartphones, laptops and tablets, resources can be accessed at any time and in any location.
